

# Ertuğrul Candan

## About

I hold a degree in Software Engineering from Kırklareli University and am actively working towards becoming a strong candidate in the software industry. With intermediate proficiency in English, I can communicate effectively both in writing and speaking. I have successfully completed three active web projects and gained substantial experience through various team collaborations. I thrive in high-pressure environments, am detail-oriented, and have strong problem-solving skills. I am always eager to learn new technologies and adapt quickly to challenges. My qualifications and certificates are included in the appendix. With a commitment to continuous improvement and a passion for the field, I look forward to contributing and growing further in the software industry.

---

## Education Information

**2020-2024** Kırklareli University – Software Engineering

---

## Experiences

### ISSD-Intern

**July 2024 – September 2024**

- Gained hands-on experience in software development, working on various backend and frontend tasks.
- Collaborated with a team to improve web applications and solve technical issues.
- Applied problem-solving skills in real-world scenarios, enhancing my understanding of industry practices.

### Freelance Web Developer

#### Ongoing

- Developed and deployed two live café menu websites:
    - <http://Ertcan.github.io>
    - <https://Ertcan.github.io>
  - Currently working on a tourism website:
    - <https://guncuturizm.com>
  - Utilized modern web technologies to create responsive, user-friendly websites, with a focus on performance and design.
-

## Foreign Language

English

*Writing Advanced (B2), Speech Good*

Turkish

*Native Language*

---

## SKILLS

### Web Programming (Advanced level)

I possess intermediate to advanced coding knowledge in web programming, with experience in both frontend and backend technologies. For Web Programming:

- HTML
- CSS
- Bootstrap
- JavaScript
- PHP
- React

In addition to these JavaScript libraries, I have experience with many others. I have completed several web projects utilizing these technologies.

---

### Mobile Development (Intermediate to Advanced Level)

I have experience developing mobile applications using React Native with a focus on Android development. I have worked with Mapbox for integrating maps and location services into applications. Additionally, I have implemented real-time data communication using Socket.io, enabling seamless and interactive user experiences.

---

### Backend Development (Intermediate to Advanced Level)

I have intermediate to advanced proficiency in backend development, using the following:

- Node.js
- TypeScript
- NestJS

I work on web applications, focusing on scalable and efficient backend architectures.

---

### Database Management Systems (Advanced level)

I have strong knowledge of database management and connections, with experience in:

- MSSQL
- MYSQL
- PostgreSQL

I have developed automation projects and worked extensively with database integrations in various applications.
